Career Objective Highly motivated and detail-oriented Junior Full-Stack Web Developer passionate about bridging the gap between immersive, fluid user interfaces and scalable web logic.

Technical Skills * **Languages & Core Web:** JavaScript (ES6+), TypeScript, HTML5, CSS3

- **Frameworks & Libraries:** React.js, Next.js, Redux Toolkit.
- **Styling & Animation:** Tailwind CSS, Framer Motion, CSS Modules.
- **Backend & Database Knowledge:** Node.js, Express.js, MySQL, MongoDB, RESTful APIs.
- **Developer Tools:** Git, GitHub, VS Code, Postman, Vercel, Render.

Interpersonal Skills * Clear technical communication, systematic problem-solving, micro-interaction detail sensitivity, structured time management.

Professional Experiences **Shobdotori.com** – Full-Stack Web Developer (Contract)

November, 2025– Present

- Engineered and optimized client-facing components and server-side logic for a production web application.
- Developed responsive user interfaces and managed dynamic data transactions across core modules.

Projects | **SunCart Store** – Full-Stack Summer eCommerce Application

[Live Website Link](#) | [Project Repository](#)

- **Project Overview:** A high-end full-stack summer essentials eCommerce platform featuring a cozy-web aesthetic, intentional fluid motion, and a warm, inviting user atmosphere.
- **Major Features:** * Integrated BetterAuth to handle secure Email/Password logins and a seamless One-Tap Google Handshake authentication flow.
 - Programmed a protected product details routing system that restricts exclusive content to verified members.
 - Developed a database-backed user profile dashboard allowing members to actively manage and update their accounts.

Pawsky Wawsky – Full-Stack Pet Adoption Platform

[Live Website Link](#) | [Client-Side Repository](#) | [Server-Side Repository](#)

- **Project Overview:** A secure full-stack pet adoption platform built to connect loving homes with animals in need through clean, role-based interaction workflows.
- **Major Features:** * Formatted multi-role dashboard capabilities allowing pet owners to perform full CRUD listings while users track adoption applications.
 - Implemented strict backend security utilizing JWT authentication stored inside secure, HTTP-only cookies.
 - Engineered a robust RESTful API layer coupled with MongoDB and Mongoose to handle persistent application states safely.

Education **Rajshahi University**– MA-(Master of Arts) 2005– 2010 Grade- A-

Language * **Bengali:** Native / Bilingual Proficiency | **English:** Professional Working Proficiency.
